Lesson 2 A Complete Course in Electronics

Electronics is the processing of electrical charges as information. Nam June Paik, one of the pioneers of the field of electronic art, makes this distinction very clear by commenting on "electricity" and "electronics": "Electricity deals with mass and weight; electronics deals with information: one is muscle, the other is nerve." (from: Gene

Basics of Electricity/Electronics

Preface: Welcome to the Electronics Theory course. This course, in its entirety, was written by Ray Dall. It has taken several years, and is truly a monumental work. What started out as a series of emails - wound up being a complete online course, and has become the basis of now two published books.
