Recommended Water Pump - Hailea HX-4500 or Hailea HX-8830. HC-2200: Water Refrigerated - 2000 litres. Required Water Flow Rate - 1000-3000 litres per hour. Recommended Water Pump - Hailea HX-4500 or Hailea HX-8830. We recommend to always 'over-spec' your chiller so it is not running at full capacity.

## **Hailea Water Chillers- GroWorks UK**

Most chillers have a three phase supply, but it could be that one of the phases has been lost, broken or disconnected. The chiller controls should prevent the machine from running in such case. It could also be that there has been a ground fault in the motor and the chiller has detected this and shut itself off.
