From specifications to warranty information, this ThinkCentre M52 manual should contain all relevant information about the computer. Basic maintenance, including removing and installing RAM and the hard drive, is contained within most user manuals. Also, common troubleshooting information as well as resetting the machine back to its factory condition is usually written into the manual.

### Lenovo ThinkCentre M52 Manual | My Computer Manuals

The ThinkCentre line of desktop computers was introduced by IBM in 2003. The first three models in this line were the S50, the M50, and A50p. All three desktops were equipped with Intel Pentium 4 processors. The chassis was made of steel and designed for easy component access without the use of tools. The hard disk was fixed in place by a 'caddy' without the use of screws.
