Run or workout with Nike + iPod - Apple (IN)

The Nike Plus Sensor is a sensor designed to sync with your iPod -- including the iPod touch, nano and the iPhone. With the Nike Plus Sensor, you are able to track the distance of your workout, the time, pace and the number of calories burned. You can also view the distances you have run and listen to your iPod music while running.

How Do I Insert the Nike Plus Sensor Into My Shoe? | SportsRec

Hence the three stars, even though I love it while using it! By the way, there are several products out there that hold the sensor, so you don't need Nike shoes. I use the Bean Pod (\$6.99), and have two sets (for all my shoes, including my Nike's). Highly recommend those too.
