It is the fourth title in the Competency-Based Series (the others are Obstetrics and Gynecology, Pediatrics, and Surgery) and part of the Student Consult online program from Elsevier. Its premise is to use brief internal medicine case studies to highlight the six core competencies of the Accreditation Council for Graduate Medical Education (ACGME) (patient care, medical knowledge, practice-based learning and improvement, interpersonal and communication skills, professionalism, and systems ...

Medicine: A Competency-Based Companion

Converting to a model of education that is based on competency skills instead of simply the amount of time spent in training requires a lot of collaboration, coordination, and planning. Dr. Englander identified four key steps to getting to a competency-based system of medical education: Step 1: Identify your desired outcomes.
