The Iraq War was one of the most prominent events of the early 2000s. The prelude to the war halted the sense of optimism that captivated International Relations as a discipline after the end of the Cold War. The United States initiated this war following a lengthy securitization process. This study focuses on analyzing the securitization process in Iraq prior to the 2003 war.

In *Securitization and the Iraq War* by Faye Donnelly, readers will find a European theoretical and methodological treatment of the Iraq war and one that is deeply embedded in debates over the role of language in the study of security. While the book is filled with intriguing analytical nuggets, many of which merit at least article length treatment, I will discuss two very important ideas on the processes that shape security outcomes that I believe are central to the analytical contributions ...
