The major works so far as Kant's views on the mind are concerned are the monumental Critique of Pure Reason (CPR) and his little, late Anthropology from a Pragmatic Point of View, first published in 1798 only six years before his death. Since the Anthropology was worked up from notes for popular lectures, it is often superficial compared to CPR.

Metaphysics . The Philosophy of Mind is generally treated as part of metaphysics because it addresses the nature of an aspect of reality: the mind. For some, depending upon their other views on metaphysics, the nature of the mind may, in fact, be the nature of all of reality because they believe that everything is dependent upon the observation and actions of minds.
